**PRELIMINARY AMENDMENT**

Please amend the application filed concurrently herewith as follows:

**IN THE SPECIFICATION**

On page 1, please replace the paragraph under Field of the Invention, with the following:

The present invention generally relates to an implantable therapeutic substance infusion device, also known as an implantable "drug pump." Specifically, the invention is an implantable drug pump configurer that considers aspects of the implantable pump along with specific drug formulations. More specifically the invention relates to real-time communication between physicians and the implantable therapeutic substance infusion device to assist the clinician in managing patients receiving therapy.

**REMARKS**

A version of the amended specification and claims, showing additions and deletions by way of underlining and bracketing, is attached.
